

Centerpieces

Centerpieces are arrangements that are meant to be viewed all the way around. There is no “front” as opposed to a “back” side of the design. They are ideal arrangements to be used in the middle of a dining room table. They are a wonderful way to make a dinner much more pleasant. They are great for parties. They are an **important form of decoration for wedding receptions**. They can be used on a coffee table in the living room, on a sideboard, in a kitchenette, or even at a workstation. They may be used as designs for folks recuperating in hospitals. They are wonderful holiday designs for family meals such as Thanksgiving & Christmas. They may be created in both foam and water bases. Obviously this genre of floral art is quite important!

004PPV Celebration Design (has centerpiece option)
