Extremely Easy:

In all of our distance education "how-to-do-its" we take you step-by-step through the design process. We also point out in advance if you need to know something (like how to make a bow) in the descriptions of the lessons....

Therefore most of the designing in these "floral digital cookbooks" can be mastered even if you have had little or no floral design background.

But perhaps you feel really unsure of yourself with flowers.....You know......The very thought of designing flowers seems very intimidating to you?

Then some of these specific titles may be ideal.......

They are quite easy and yet the results can be awesome. Learning the designing in these offerings will hopefully help you build your confidence!
